C06 – Student Leadership & Career and Technical Student Organizations

All state approved CTE programs are required to provide student leadership as an integral cocurricular component of their program. A Career Technical Student Organization (CTSO) is a student leadership organization that provides an excellent framework for developing leadership skills. Students will understand leadership and communication for personal development, communications and speaking to groups, development of managerial skills, leading individuals and groups, and career success to gain leadership positions both in their community and career. Much of the CTSO/leadership work completed by students should be incorporated within classroom lessons and concepts providing students with knowledge and hands-on experience related to course curriculum. The [CTE Teacher Technical Tool Kit](https://www.michigan.gov/mde/0,4615,7-140-2629_53968---,00.html) provides clear guidance to support local agencies in this work: https://www.michigan.gov/mde/0,4615,7-140-2629_53968---,00.html
