

TEACHING CADET

Course Description

Students will be involved in a fast paced, innovative, hands-on curriculum where they gain knowledge about teaching and learning. Teaching Cadets will develop skills that are helpful in college and beyond, such as presentation, public speaking, writing, communication and reasoning. Students experience the rewards of teaching through clinical placements in their local district as part of their course work. All students are required to observe and participate in a variety of classroom settings at the pre-school, elementary, middle, and high school (grade 9 only) levels, including general and special education. Students will also begin working on their “pre-teaching” portfolio. The course helps prepare students for careers in education as well as entry into college or university teacher preparation programs.

Certifications

- Health and Safety Training for Licensed Child Care Providers Courses 1 and 2
- CPR Certification
- CDA or Mi-YDA Credential

Program Prerequisites

Students must have completed the 10th grade of high school and have a minimum 2.0 GPA. Students must also complete and pass a background check.

High School/College Credits

Students who successfully complete Teaching Cadet will earn high school credit and will also have the opportunity to earn articulated college credit.

This program is a CTE state-approved program.
